Re: 10/604985

Please search nucleic acid sequence SEQ ID NO:1 in the above application as follows:

1. A score over length search of SEQ ID NO:1, looking for fragments of 15 to 80 nucleotides in length that are at least 95% complementary to SEQ ID NO:1.

Thanks,

CRFE (handwritten)

Please search nucleic acid SEQ ID NO:1 in the above application as follows:

1. A standard search of SEQ ID NO:1 against the nucleic acid databases.

2. A length limited search of SEQ ID NO:1, limited to oligos of 200 nucleotides or less. (Note: due to the size of the sequence listing in this case I am unable to determine the exact size of SEQ ID NO:1).

Thanks,
